Many of them basically work on the emerging needs of the community.

However, unlike other organizations which focus their efforts on sectorial programmes, the society supports long term development initiatives that arise out of the people. We recognize that the process of the development is as important as the outcome. To sum up the above frame work , it must not be the Our voluntary organization and community groups have emerged as a strategic band on the development exaggeration to say that our society is dedicated to work for the people to place them on the alter of development and assist them to voyage into a world of glorious prospects and better and beautiful tomorrow.

However there is no denying of the fact that the lethargy and ad version to work of the youth are responsible for this declive. So we must shake off the lethargy and ad version to youth or masses. Jadabpur Janajiban Unnayan Samiti (JJUS) has been throwing a challenge , in which way we intervene to bring about a qualities change in the lethargic youth or masses.

Beside the Government and various funding agencies has been more emphasis on the development of the community. It is better time for us to unfurl and make moves to take up various programmes of the community.
